John Ryan

MINUTES

The minutes from the March 15, 2004 meeting were approved as written.

OTHER BUSINESS

Doug Weidauer was unanimously elected chairman for this committee.

DISCUSS THE REQUEST FOR THE
REVIEW OF THE C3 CODES

The Commission has asked the advisory committees to make a recommendation as to whether or not there should be a full review of these codes. Dan Jones gave a summary of the recommendations that will be given to the Commission from the other committees.

Dwight Perkins spoke on behalf of IAPMO.

Motions unanimously passed to the answers to the four questions asked by the Commission as follows:

The ANSI process is not preferred.
The C3 Codes do not represent a significant difference in life, health, and safety issues.
The C3 Codes do not represent a significant difference in cost or savings if implemented.
There is no compelling reason, either way, to do a full review.

A motion unanimously passed to recommend to the

Commission that if there is a submittal made through the proper channels at a later date, that a full review could be done.

The meeting adjourned at 10:20.
